CityView

THIS IS BOB

He's the Chief Building Official.
But Bob has a problem...

☾★

He stays late every night just to get caught up but still fails to meet service delivery targets

Until now.
Introducing…

CityView

⚙

Here's how it works:
Bob saves time offering self-service options to contractors and citizens
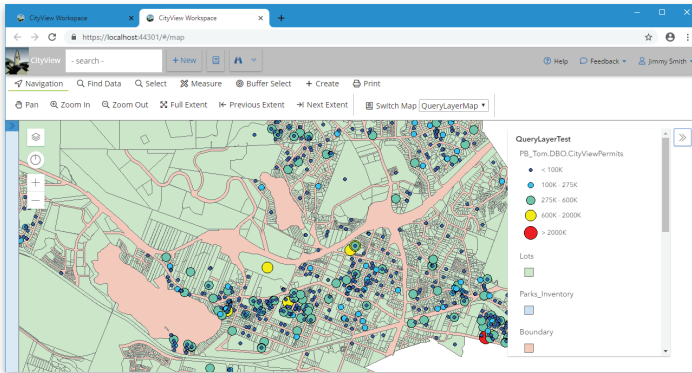

☺

They're happy…and so is Bob!

⏱

Electronic Plans Review speeds up Bob's review time and reduces paper

◎

There's more…
Real time inspection results help meet service delivery targets

CityView can help many of your departments, not just building. This full suite of community development solutions can help your municipality:

- Leverage the power of your GIS with Esri ArcGIS Server integration

- Increase efficiency with everyday tools: Microsoft Word and Outlook add-ins...Only available with CityView!
- Streamline the review process and automate permit approvals
- Complete inspections in the field
- Reduce burden on IT staff

"

"Using CityView's Electronic Plans Review solution will enhance Rocky View County's planning and engineering review processes...The tool will provide an opportunity to increase service and efficiency through automation and ultimately allow for a consistent method of plan evaluation."

—Jennifer Dick, Rocky View County, Calgary
