

CityView Design Reviewer

A cloud-based electronic plans review solution for everyone

For decades, municipalities required permit applicants to provide multiple copies of their paper plans. This involved a lot of high-cost printing and a steady stream of traffic to City Hall.

CityView Design Reviewer brings your municipality into the 21st century with a completely paperless review process.

Contractors and developers can submit plans electronically for approvals via a secure, cloud-hosted portal.

Local government plan reviewers can receive, review and markup the plans, provide feedback to contractors/developers, and ultimately approve and stamp the plans without ever leaving their desk.

What can your municipality gain with CityView Design Reviewer?

Faster turn-around time – Adopt a standard electronic plan review process and expedite data entry, retrieval and reporting. Design Reviewer’s workflows let you reduce or eliminate paper processes completely.

Better control – Easily share, review, markup, and track changes with Bluebeam Revu®. Send review comments back electronically and reduce mistakes and confusion with robust version control and revision comparison tools.

Improved communication – Combine CityView Design Reviewer’s electronic submission, version-control and workflow capabilities with the functionality of Bluebeam Revu®. This helps you communicate feedback quickly and concisely to applicants.

Increased engagement – Increase convenience for constituents and contractors, and remove the manual processing work from your employees. Citizens can access the online Design Reviewer Portal from any device 24/7 to submit plans and pay any related fees. They can also check the status of their application and much more.

Lower carbon footprint - Significantly reduce the amount of paper received and stored with online submittal of forms and drawings and paperless reviews. Eliminate long queues and gas consumption as developers and contractors no longer need to travel back and forth with plans.

CityView Design Reviewer: A Product to Love

Top reasons local governments love CityView Design Reviewer:

- Fewer lines at the front desk
- No scanning required
- Quickly note corrections or deficiencies with digital mark-up
- Review comments sent back to contractor/developer electronically
- Save money and space – no need to store physical archives

Top reasons contractors and developers love CityView Design Reviewer:

- Save money and time printing multiple paper plans
- No more trekking down to City Hall with paper plans
- All reviewer comments are in a consistent format and in one place
- Check on the status of projects at any time via the online portal
- Integrate with Bluebeam Revu® to share, review, markup and track changes
