

## WHY CHOOSE CITYVIEW?

### We empower local governments to build thriving communities

In 1982, CityView launched one of the first community development and land management software solutions in North America. Now more than 40 years later, we have helped scores of communities across Canada and United States drive efficiency and growth. Why do public sector organizations continue to choose CityView?

#### Flexibility

We offer unsurpassed flexibility in implementation options (cloud or on-premise); multi-channel, anywhere/anytime access; and the ability to adapt to your changing business needs.

#### Ease of Use

The user experience is paramount, which is why we designed an intuitive, modern workspace that includes workflows tailored to follow your organization's business processes.

The City's new web portal is now online. Apply for permits, check the status of applications and inspections, submit complaints, check on planning applications and apply for business licenses - all from the comfort of home. No more lineups.

The CityView Portal is the first step in the City's plan to improve its service offerings for citizens. Watch for more updates coming soon.

#### Code Enforcement

### WHAT OUR CUSTOMERS SAY

*"CityView is helping take the Bay County community development department into a new era.*

*An era of cloud-based security, mobility, faster customized workflows and focused reporting on key performance indicators."*

- Ian Crelling; Bay County, Fla.

*"We are excited to begin our journey and look forward to a long prosperous friendship/ partnership with Harris and CityView."*

- Steve Woodard; Madison County, Ala.

*"We chose CityView 20 years ago because we knew it would grow with our municipality. Case in point, the newest version of Workspace provides the advantages of modifications from the input of end users."*

- Belinda Boucher; Town of Collingwood, Ontario

*"The City of Ontario has been a long time client and user of CityView software. We are extremely pleased with the customer service provided by the company and its staff."*

- Donna McKnight; City of Ontario, Calif.

## THE CITYVIEW ADVANTAGE

### Local government experts

Since 1982 we have helped organizations across North America solve their business problems, eliminate time-intensive redundant work, and meet their customer's expectations. Founded by former local government employees for local government, our unrelenting focus and dedication to the public sector allows us to deliver an outstanding product to our customers.

### Customer-suited design

We work in partnership with our customers to continue to evolve and improve the software. We actively gather your needs and suggestions to make enhancements that can be rolled out in regular releases. CityView has a tremendous amount of depth and is completely integrated to meet your business process needs out-of-the-box.

### Forward thinking

We are firmly committed to technology innovation. Our industry-leading applications are continuously evolving as we anticipate and address the next generation of business challenges. Our intimate knowledge of the industry allows us to stay in tune with, or ahead of, competitor and customer requirements.

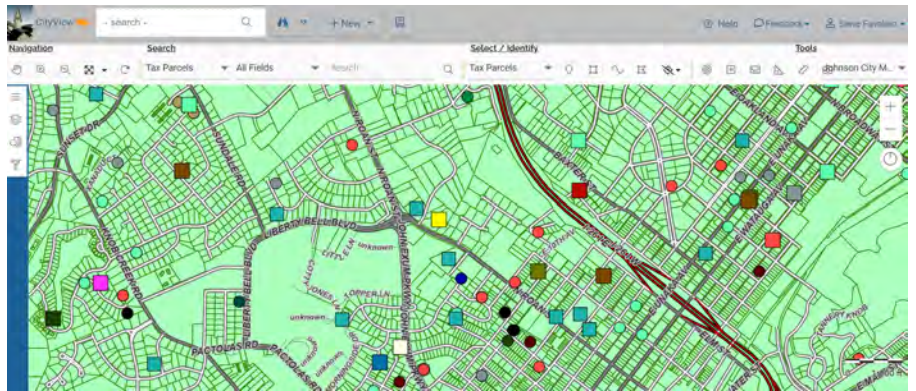

## Data Conversion

We undertake imports of historical data with virtually every implementation we do; our data conversion specialists have significant expertise and experience with importing and exporting local government land management data.

## Integration Expertise

Our integration expertise lowers the total cost of ownership by providing tight integrations with third-party products and the flexibility to maintain your systems of choice. Our deeply integrated GIS capabilities assimilate mapping and spatial analysis into the everyday business activities of CityView users.

GIS mapping

## Risk Reduction

Our flexible, intuitive and modern solutions provide multi-channel access, robust workflows aligned with industry best practices and disaster recovery services.

*CityView offers a full suite of software for development, code enforcement, licensing and other regulatory services. Comprehensive permitting, inspections, reviews and approvals combined with online processing and payments from citizens and contractors reduce time, cost and errors, and engage your constituents.*
