

WORKSPACE

Elevate Your Workspace Experience with CityView

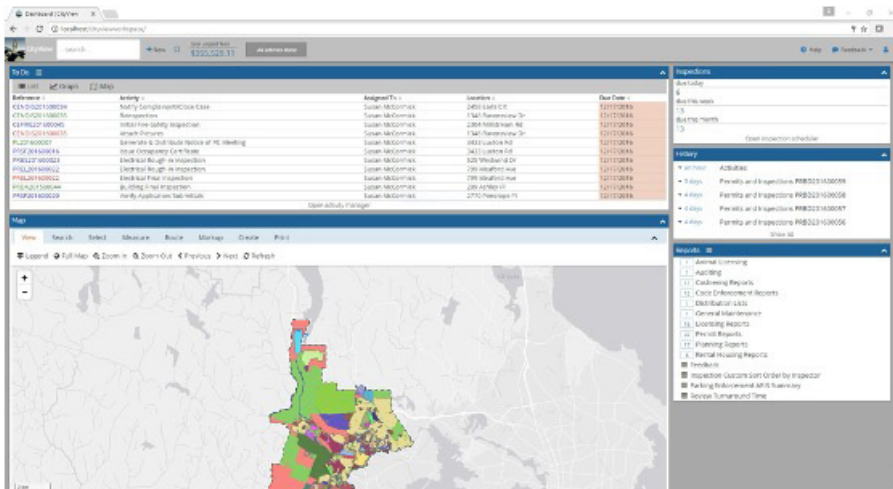

At CityView, we're dedicated to revolutionizing the way you work. Our innovative browser-based Workspace solution is designed to empower your team with simplicity, efficiency, and anytime, anywhere access to your critical data. Unlock the full potential of your workspace with CityView today!

Simplify Your Workflow

CityView Workspace offers a streamlined user experience, allowing you to complete tasks with ease. Say goodbye to endless clicking and searching—our intuitive interface puts all your essential data at your fingertips, saving you time and alleviating frustration.

Enhance Productivity

With CityView Workspace, productivity soars to new heights. From simplified data entry to user-assist features and customizable dashboards, our solution is tailored to meet your unique needs. Experience seamless navigation and enhanced productivity like never before.

WHAT OUR CUSTOMERS SAY

"Since the migration, staff have found using Workspace to be more user-friendly and more responsive than the Desktop version of the program. This met our goal behind migrating to Workspace in the first place, which was about working more efficiently and increasing the quality of life of our permit issuers."

- Keith Friesen, City of Medicine Hat, Alberta

"Cornwall building staff have adjusted to CityView Workspace and are enjoying the new environment; there is definitely less clicking and navigating between tabs, which increases productivity."

- Charles Bray, City of Cornwall, Ontario

"Now, with Workspace, everything is in one place, on one screen, so there's a lot less switching around."

- Megan Dunn, Town of Canmore, Alberta

CITYVIEW TECHNOLOGY

Flexibility and Choice

CityView is flexible enough to offer you a choice between on-premise and Cloud deployment.

Our cloud-based offering is ideal for municipalities with limited IT resources or those looking to reduce IT costs. We take care of the hosting and software management for you, freeing up staff for other critical duties.

Some of the reasons customers transition to a subscription solution include:

- Lower up-front costs
- Easier administration for your IT staff
- Your data is secure in the CityView data center in either USA or Canada
- Reliable infrastructure in a professionally managed data center

Will Smith from the City of Quinte West said, *“CityView’s hosted solution has allowed us to up our internal security, take away an attack vector and rely on CityView expertise to keep the system secure. As an added benefit, we’ve also noticed an increase in speed on our mobile system.”*

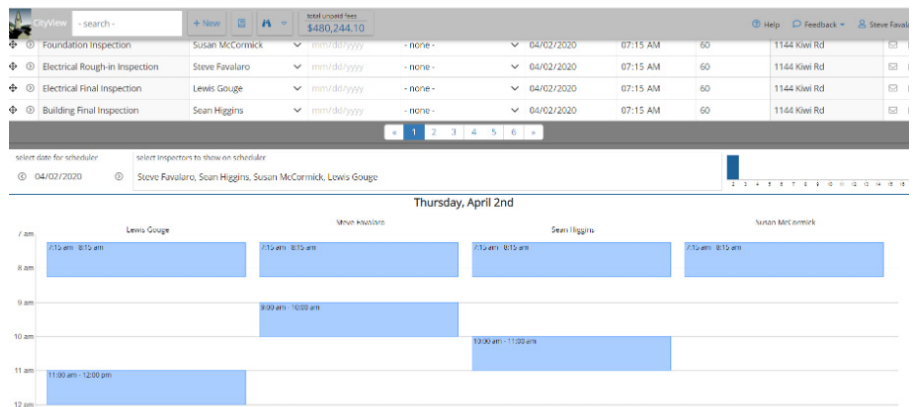

If you’re interested in further exploring CityView Cloud solutions, email CityViewSales@harriscomputer.com.

Visualize tasks

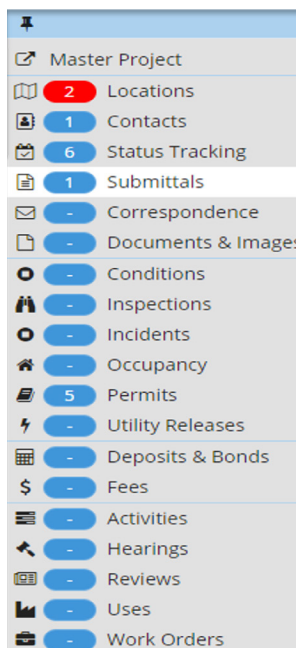

Stay on top of your workflow with our highly visual task/activity bar, conveniently located at the bottom of the screen. With constant access to your workflow, navigating through your business processes has never been easier.

Embrace an intuitive user experience

At CityView, we prioritize user experience above all else. Our user assist features are a testament to this commitment. When you initiate a new case or application within our system, our intuitive user interface becomes your guide, leading you through each crucial step with precision. Whether you’re a seasoned user or just starting out, our user assist ensures accurate data entry and seamless navigation through the configured workflow.

Calendar view allows staff to efficiently manage their workload
